## **Sun Lighting shines in Tucson Trading Spaces Show**

Tucson, AZ- That zany design crew and their big white truck are on the road again, except this time, they made it all the way out to Tucson! TLC's groundbreaking hit design show **Trading Spaces** chose the Tucson Foothills for the site of their latest remodel and Tucson's largest lighting showroom, **Sun Lighting**, as their lighting source.

Both couples Andrea and Brian Winkle and Dan and Londa Bess were high school sweethearts and appropriately covered their application for the show with hearts explaining their unique love stories. Trading Spaces loved their story and chose the couples for the show after only a few short days!

The Winkles knew Tucson's premier lighting showroom **Sun Lighting** would be the perfect site to find a breathtaking chandelier when they remodeled the Bess's master bedroom. Owner

Danny Levkowitz and son Jeff Levkowitz scoured their lavish showroom with the couple to find the perfect chandelier for their room. The exquisite wrought iron lighting piece was the cornerstone of their redesign.

The designer and couple team chose **Sun Lighting** based on its reputation as the number one lighting source in Tucson and having the best selection, service and stunningly unique pieces. Already known as the premier fan and lighting store in Tucson, Sun Lighting is now a nation wide recognized name in lighting!

Sun Lighting is located at 4545 E. Broadway Blvd. and can be reached at 520-322-4303.

The show aired last Saturday and will re-air Friday June 30 at 4 p.m. For clips from the show or more information contact Nichole or Lauren.
